

ADA QUICKSCAN COMPLIANCE DOCUMENTATION

CERTIFICATE OF COMPLIANCE ASSESSMENT

GOOD FAITH EFFORT DOCUMENTATION

Certificate ID: GF-2026-SAMPLE

Issued To:

City of Example, Colorado

Office of Digital Services

Website Assessed: <https://www.example.gov>

Assessment Date: January 15, 2026

Accessibility Score: 67/100

STATEMENT OF GOOD FAITH EFFORT

THIS DOCUMENT CERTIFIES that the organization listed above has completed an automated accessibility assessment of their digital properties using **ADA QuickScan's** technical scanning tools based on **WCAG 2.1 Level AA** standards.

This assessment identified **12 accessibility issues** requiring attention. By commissioning this evaluation, this organization demonstrates a proactive commitment to:

- **Digital Accessibility** for users with disabilities
- **ADA Title II Compliance** (for government entities)
- **WCAG 2.1 Level AA Standards** alignment

SCOPE OF CERTIFICATION

This certificate documents:

Element	Status
Assessment Initiation	The organization proactively sought to identify accessibility barriers
Issue Identification	12 technical issues were cataloged and prioritized
Good Faith Effort	Evidence of intent to comply with accessibility requirements
Documentation Date	January 15, 2026

LEGAL SIGNIFICANCE

Courts have recognized that organizations demonstrating good faith compliance efforts are treated more favorably in ADA-related proceedings. This documentation serves as evidence that:

- The organization is **aware** of accessibility requirements
- **Proactive steps** were taken to identify compliance gaps
- The organization has **documentation** of their accessibility status as of the assessment date

DISCLAIMER: This certificate documents the completion of an automated technical assessment. It does not constitute legal advice, guarantee full ADA compliance, or provide immunity from legal action. Complete compliance requires implementation of identified remediation steps and may require manual testing with assistive technologies.

This is a SAMPLE certificate for demonstration purposes. Actual certificates are customized with your organization's specific scan data.
